Continuously improving whole life value in the construction industry

Quality Statement

Whole Life Consultants Limited is dedicated to providing a consultancy service of the highest quality to our clients. The directors are ultimately responsible for ensuring the quality of the outputs and service and achieve this by playing an active role in every project we execute.

To deliver projects of the highest quality which surpass our client's expectations the directors rely on the consultants, other staff associated with the company. To this end the company only employ staff and associates who have appropriate qualifications. Comprehensive checking procedures are in place and every final report is signed-off by a director of the company.

The company and its staff comply with all relevant British Standards and Codes of Practice when carrying out their roles. The Directors are responsible for ensuring that these are enforced and kept up to date.
